Un'interessante raccolta di respiro internazionale di progetti innovativi in un settore della grafica sempre in crescita come è quello della creazione di copertine e del packaging di DVD. Dal packaging di prodotti musicali a quelli cinematografici, "DVD Art" esplora sia la fase creativa che precede il progetto sia le considerazioni pratiche e le limitazioni che caratterizzano la sua realizzazione.

Nel valicare il confine tra le due e le tre dimensioni e nel procedere verso forme grafiche sempre più dinamiche, questo settore offre enormi possibilità al grafico che vuole sperimentare nell'ambito di lavori commerciali e innovativi al tempo stesso.
