La Commissione di etica clinica dell'Ente Ospedaliero Cantonale è stata istituita nel 2003 dal Consiglio di amministrazione come organo consultivo e di coordinamento per i problemi di etica clinica. A disposizione del personale dell'Ente Ospedaliero, la Commissione agisce principalmente su tre fronti: esprime pareri e proposte concernenti situazioni cliniche in caso di conflitti di valore; elabora e mette a disposizione raccomandazioni o direttive di carattere etico; promuove la formazione continua in etica clinica del personale ospedaliero. La Commissione agisce conformemente alle norme giuridiche vigenti e tiene conto delle raccomandazioni e delle direttive dell'Accademia svizzera delle scienze mediche e delle decisioni della Commissione nazionale di etica per la medicina umana.

ScienceDirect is the world's leading source for scientific, technical, and medical research. Psychology Starting point. As a result of his medical training and his work as an assistant to Hermann von Helmholtz, Wundt knew the benchmarks of experimental.
